MEMORANDUM OF UNDERSTANDING

for cooperation between

Milagres College, Kallianpur

and

St Mary's College, Shirva

Preamble

In accordance with a mutual objective to promote further cooperation between Milagres College, Kallianpur, Udupi 576114, Karnataka, India represented by the Principal Dr Vincent

Statutory Alert:

1. The authenticity of this Stamp certificate should be verified at 'www.shclsestamp.com' or using e-Stamp Mobile App of Stock Holding.
2. Any discrepancy in the details on this Certificate and as available on the website / Mobile App renders it invalid.
3. The onus of checking the legitimacy is on the users of the certificate.
4. In case of any discrepancy please inform the Competent Authority

Alva and St. Mary's College, located at Shirva, Udupi 574116, Karnataka, India, represented by the Principal- Dr Herald Ivan Monis agree to cooperate in regard to programs based on the principle of reciprocity. Milagres College, Kallianpur and St. Mary's College, Shirva are also referred to individually as a "party" and collectively "parties".

This memorandum of Understanding serves as a legal document for both parties to establish and develop their bilateral relationship. The academic relationship is drawn to enhance research, educational and other processes at both institutions and thereby build on their academic quality and outreach.

The Objectives of the Agreement

Both parties will work together to develop mutual agreements for cooperation based on their respective academic, scientific and research needs. The activities in which specific agreements may be developed include:

- Student-exchange programs
- Faculty exchange, collaborative research for scholars and students at all levels
- Social outreach programs
- Exchange of online lectures
- Exchange of academic information, material and programs
- Development and implementation of joint research programs, including the development of proposals for funding purposes
- Joint conferences, workshops and training programs; and other cooperative activities as appropriate

Milagres College, Kallianpur and St. Mary's College, Shirva jointly agree to develop and establish provisions for program implementation that will serve the mutual interests of both parties.

It is understood that the details of joint activities, conditions for utilization of results achieved, and other forms of cooperation will be negotiated for each specific type of activity, separately.

It is also understood that financial arrangements will be negotiated in each specific type of activity and will depend upon the availability of funds. Each party agrees to seek financial resources for supporting the exchange and collaborations. The contract and related work done at Milagres College Kallianpur will be under the jurisdiction of the Principal, Milagres College, Kallianpur, supervised and managed by Dr Vincent Alva, Principal. The programme St Mary's College Shirva will be under the jurisdiction of the Principal and supervised and managed by Principal- Dr Herald Ivan Monis.

Terms of Understanding

This understanding will be effective on the date of the last signature hereto and will remain in effect for an initial period of five years and will be auto-renewed for further periods of equal time, if not amended or cancelled by either party. The agreement can be terminated by either institution by giving one-month notice to the other party. The projects or work started before the termination shall come to their logical and without any negative impact to either party and be amicably agreed upon by both parties.

The activities under this understanding will be reviewed on an annual basis as mutually agreed and plans for future activities developed each year immediately following the review.

Signatures

The parties hereto, through the duly authorised representatives, hereby agree to the provisions and terms of this collaborative agreement.

1. Industrial Visit:

INDUSTRIAL VISIT REPORT

Place 1: Udaya Group of Industries, Manipal.

Objectives:

- 1) Understanding production mechanism and management function.
- 2) This visit has exposed all students with industry working environment, culture, employee satisfaction and issue of the company and future plans.

About Udaya Group of Industries:

Since 1979, Udaya Group has found recognition for fineness in each of its product. The group's motive to design and develop superior quality products has enabled it to gauge the pulse of the customer. Today due to its work ethics and quality, the company has earned a huge list of clients in India and abroad and its keeps on increasing each passing day. Udaya Group provides services of manufacturing, retail, and online marketing. Mr. Ramesh A Bangera is the founder of Udaya Group of Industries. Their manufacturing units are:

- 1) Udaya Aluminium Industries, Manipal.
- 2) BB Aluminium Products, Manipal.
- 3) RR Aluminium Products, Manipal.
- 4) Udaya Steels, Manipal.
- 5) Udaya Kitchenext, Udupi.
- 6) Udaya Sales Corporation, Manipal.
- 7) Udaya Foundries, Manipal.

Not only these, they have their branches all over Karnataka.

Details of the journey:

We started travelling from the college campus at 9:45 A.M. via bus along with our co-ordinators faculties. We reached to the Udaya Group of Industries premises at Manipal within half an hour. At the very beginning of our visit we met Mr. Hemanth Devadiga at the entrance of the main-gate who was the incharge of the Industry. We were divided into two groups. And accordingly we were sent in to know more about the industry.

Each workers had their own departments. Few dealt in making lids, screws, plates, pans,cooker etc. Once these process were done they were sent for cooling process.

In this process, the incharge were only womens. We got many more information of how the process was done, and also the process of magic pot vessel. To get the vessels in a proper shapes, 100 tons deep drawing press machines were used.

And the remaining wastes of aluminium and steels were used to prepare handles for all the vessels.

After attending the Udaya Kitchenext, we went to another branch of the same industry which was 10 minutes of gap named BB Aluminium Products.

Here we got to know the process of preparing the steels by melting the large plates into liquidform to make sheets in different shapes.

Later on, we got to know about Annealing process where they keep the large thick sheets of aluminium in the heater and keep the fire till it reduces the hardness to make it more workable. This process is done for the whole day, without untouched.

Conclusion:

This industrial visit gave a lot of information about various aspects of production, marketing as well as the operation of a company. The staffs were very helpful to make us understand every part of the industry.

Place 2: Karnataka Milk Federation (KMF), Kulshekar, Mangalore.

About KMF Mangalore:

Dakshina Kannada cooperative milk producer union was established during the year 1986 covering Dakshina Kannada and Udupi districts jurisdiction. The union has two diaries at Mangalore and Manipal with processing capacity of 3.85 Lakh litre per day.

They produce and sell ghee, butter, milk, curd, peda, lassi, mysore pak at the brand “Nandini”. “Nandini” is family name of pure and fresh milk and milk products.

Details of the journey:

After visiting the Udaya Kitchenext Industry, Manipal we started travelling to mangalore KMF. It was around 11:30 A.M., and on the way at 1:00 P.M. we went to the restaurant to have our lunch and at 2:00 P.M. we left the restaurant and headed further. We reached KMF at 2:30 P.M. Security is provided in front of the gate. No one is allowed to enter the premises with prior permission. The security is provided at entry

and exit points. All the visitors should sign the visitor register to enter and exit the premises. We had to cover ourselves with hair caps, the incharge of the KMF gave brief information about the products that they produce and sell.

Types of Milk:

- 1) Pasteurised toned milk : This milk packet is available in blue coloured packet, and it is Karnataka's highest selling and most preferred milk. This milk contains minimum 3.0% fat and minimum 8.5% SNF content, which makes the best choice for all purposes and all generation. It is available in 200 ml, 250 ml, 500 ml, 1 litre and 6 litre.
- 2) Nandini Homogenised Cow's Pure Milk : This packet is available in green coloured packet, it is nutrient rich which contains minimum 3.5% fat and minimum 8.5% SNF. It is available in 200 ml, 250 ml, 500 ml, 1 litre and 6 litre pouches.
- 3) Nandini Samrudhi Pasteurised Full Cream Milk: This packet is available in purple coloured packet, which contains minimum 6.0% fat and 9.0 % SNF. It is best used for preparing homemade sweets. It is available in 200 ml, 250 ml, 500 ml, and 1 litre pouches.
- 4) Nandini Shubham Gold Milk : This packet is available in orange coloured

packet, pure pasteurized milk having 5% fat and 9% SNF. Processed with all the goodness of healthymilk for growth in children. It is available in 500 ml and 1 litre pouches only in Ballari.

Milk Processing :Milk constitutes are divided mainly into three groups namely – fat soluble, water soluble,solid-not-fat (SNF). The relative ease with which milk can be converted into a wide variety of

products makes it extremely useful base material. In some cases, milk undergoes relatively limited processing, consisting of heat treatment to increase the bacterial shelf life of the product and homogenization to increase the physical shelf life through fat separation.

The cooling process of the milk is done below 4[°]c to suppress the bacterial activity, so that the shelf life is extended upto 12-18 hours and facilitates further processing of the milk. Milk is chilled by passing through the plate chiller, milk and cold water is passed in counter current manner resulting in the cooling of milk and stored in silos.

Conclusion:

DKMU Ltd has adapted modern quality control measures and techniques in the dairy. Several biochemical and microbial of milk products is carried out for the assurance of quality of day to day sample. Acidity test, turbidity test, moisture test, clot on boiling test, adulteration test, lactometer reading and microbial analysis. Along with these the packing material are also controlled the timing of the processing and analysis along with the result are noted down in records.

Mr. K P Sucharitha Shetty the President of KMF, Mangalore spoke to us regarding the same. And encouraged all of us by stating that we need to build and grow the agricultural sectors in future.

INDUSTRIAL VISIT TO NANDINI DAIRY

Learning objectives:

To understand the processing of various milk and milk products.

Process:

On Friday, 15th of July 2022, almost 40 students of final BCom along with 4 lecturers participated in the industrial visit organized by our college. Our first destination was Udaya Kitchenex located in Manipal where we saw the manufacturing and packaging of aluminium kitchenware. It was an interesting and informative process. Our next destination was Karnataka Milk Federation in Mangalore. Here is a brief report on our findings:

The **Karnataka Milk Federation (KMF)** is a dairy cooperative from Karnataka, India, which sells products such as milk, curd, ghee, butter, ice cream, paneer and sweets under the brand name **Nandini**. It is a federation of milk producers under the ownership of Ministry of Cooperation, Government of Karnataka. Almost every district in state of Karnataka has milk producing co-operatives. The milk is collected from farmers who are its members, processed and sold in the market by the brand of Nandini.

KMF is a bridge between farmers from rural areas. There are 15 unions all over Karnataka. Mr. Abhishek guided us through our tour around the dairy whilst providing necessary information. The journey of Nandini milk begins when milk is collected from rural areas, coming under the BMCC, in large tankers which are then dropped off at KMF Mangalore. The milk is thoroughly tested in the labs to indicate whether it will coagulate on thermal processing. It is then supplied through pipes into big tanks where it goes through a process called standardisation. Standardisation of milk refers to the raising and lowering of the milk fat and solids, not fat content of milk, to prepare different varieties of milk. The standardised milk is then sent to packaging unit where it is packaged in different packs based on the fat content.

The milk is divided into various pipelines where it reaches other units to produce the related milk products. Curd is prepared by fermenting the milk under right conditions and packaged

immediately to retain freshness. The process for culturing lassi is the same with addition of sugar and a spice blend in case of buttermilk. In a different unit ghee and butter are prepared using large vessels to hold the mixture for clarification. Ghee is one of their premium product that is sealed with freshness for It is then put in containers of various sizes and labelled. Butter is churned with 85% fat upto 80° C and frozen in various sizes. Another unit shows the process of production of different sweets produced. It was explained to us that milk with a fat content of 4.5% is preheated to a certain temperature and then boiled thoroughly before adding sugar, ghee and various natural flavourings to it. It is then cooled down, shaped and packaged differently according to the type of dessert. In the same place was produced khova and their only chocolate product called Nandini bite. The interesting thing about this unit was that there were only lady workers doing everything.

A short list of all the products available under Nandini are briefly listed below:

1. Milk:

- Toned milk(1.5% fat content)
- Pasteurised(2% fat content)
- Full fat(3.5% fat content)
- Truhti(UHT treated for shelf life of 3 months)

2. Curd

3. Buttermilk

4. Lassi

5. Flavoured milk

Available in glass and PET bottles in 5 different flavours

- Badam
- Pista
- Rose
- Elaichi
- Banana

6. Khova

7. Fresh cream

8. Paneer

9. Butter

10. Sweets

- Peda
- Mysore pak
- Cashew barfi
- Godhi ladoo
- Nandini bite
- Cookies

Mr. Abhishek also gave us information on what is done when there is excess of milk. He told us that the excess milk is transported to a different factory where it is dried and made into milk powder. The milk powder is made in such a way that it retains all the nutrients that are present in fresh milk. It is generally used in schools, military camps and other places to provide people with same nutrients that fresh milk would provide with convenience.

It was explained that whenever there is an excess in the milk supply with no significant increase in the demand for it, the milk gets transported to another location where it is solidified and made into a powder. This excess is generally said to occur in the monsoon seasons when cows lactate more than normal and there is no increase in demand for fresh milk or milk products.

On our way out, they treated us with refreshing cold lassis. Then we got to speak to the president, , who talked to us about the growing milk sectors and the vast amount of opportunities available in it. He also wished us good luck for our futures. It was indeed a great opportunity for everyone to learn and observe the origination of a regular household item.

Conclusion:

This industrial visit gave us a lot of information about the various aspects of production, marketing as well as operation of the dairy. It is also concluded that Nandini is the first preference of both customers and retailers because of its brand image and price. Industrial visits provide students with a chance to meet industry leaders, professionals, and corporates who share their wisdom, learning and experiences.

Dear Ma'am,

Sub: Regarding Permission for Industrial Visit.

Milagres College is an educational institution offering a three year full-time B.com programme affiliated to Mangalore University.

The department has initiated various innovative programmes for the benefit of students over the years. To continue with our efforts, this year we have planned to have the industrial visit to make the course industry-centered and feasible. We believe such collaborations will surely yield effectiveness among young minds.

Therefore, we request you to associate with us and permit our 57 students, 04 faculty members to visit your plant on 15th July 2022.

Thanking You

Yours faithfully

Letter of Undertaking for Industrial Visit given by Parents/Guardian

To,
The Principal
Milagres, college
Kallianpur, Udipi

Dear Sir,

SUB: Submission of "Industrial Visit Undertaking".

We, Mr. Richard Almeida Mrs Pracilla Almeida parents of
Remisha Almeida bearing Roll number 19831
studying in VI -Semester, Department of Commerce in Milagres
College, Kallianpur herewith voluntarily submitting the under taking.

We, the undersigned parents/guardian are aware that, our son/daughter is participating in the industrial visit organized by the college scheduled on 15/07/22 with our full acceptance and will be bearing all the expenditure incurred for the Industrial tour towards travel and other expenses from our end.

We shall ensure that our son/daughter shall abide by the college terms and conditions for industrial tour. We, hereby declare and confirm that the college shall not be held responsible in the event of any misfortune or accidents and/or personal injuries whether fatal or otherwise involving our son/daughter.

We shall undertake full responsibility of all the consequences should any other person or body suffer such accidents and/or personal injuries and/or damage to property as a result of our son/daughter negligent act during the period of industrial tour.

We further confirm that the college shall not be held responsible for our son/daughter misconduct or wrongdoing at all times during the period of industrial tour and shall obey the instructions of the faculty members who are accompanying during the industrial tour.

Yours sincerely,

Richard Almeida

Letter of Undertaking for Industrial Visit given by Parents/Guardian

To,
The Principal
Milagres, college
Kallianpur, Udipi

Dear Sir,

SUB: Submission of "Industrial Visit Undertaking".

We, Mr. Everest Gomes Mrs Rita Gomes parents of
Ediira Gomes bearing Roll number 19825
studying in VI -Semester, Department of B. Commerce in Milagres
College, Kallianpur herewith voluntarily submitting the under taking.

We, the undersigned parents/guardian are aware that, our ~~son~~/daughter is participating in the industrial visit organized by the college scheduled on 15-07-2022 with our full acceptance and will be bearing all the expenditure incurred for the Industrial tour towards travel and other expenses from our end.

We shall ensure that our son/daughter shall abide by the college terms and conditions for industrial tour. We, hereby declare and confirm that the college shall not be held responsible in the event of any misfortune or accidents and/or personal injuries whether fatal or otherwise involving our son/daughter.

We shall undertake full responsibility of all the consequences should any other person or body suffer such accidents and/or personal injuries and/or damage to property as a result of our son/daughter negligent act during the period of industrial tour.

We further confirm that the college shall not be held responsible for our son/daughter misconduct or wrongdoing at all times during the period of industrial tour and shall obey the instructions of the faculty members who are accompanying during the industrial tour.

Yours sincerely,

(Parents/Guardian's Signature)

AN EDUCATIONAL TRIP REPORT

Organizers: Department of Science

Date: 26-07-2022

Participants: 1st, 2nd and 3rd B.Sc Students

Tuesday 26th July 2022

Department of Science organized one day Educational trip on 26th July 2022 to visit Pilikula Nisargadhama at Mangalore. The trip comprised of first, second and final B.Sc students along with faculty members. All the students were directed to gather near the Church gate at 8.30 AM.

Students started the journey at 9 o'clock with Prajna Bus Service and reached the location at 10.30 PM. Firstly, they visited 'Guthu Mane'- the Heritage House and the Artisan village. Here, the students got an idea about the beauty and abundance of the tradition and lifestyle of Tulunadu.

After a lunch at 1 o'clock, students moved on to the Regional Science Centre and Swami Vivekananda Planetarium. The science centre exhibited many scientific models and in the planetarium, students enjoyed an animated 3D show. After a short snack break, visited the Biological Park where all got a chance see the varied species of plants and animals.

At around five in the evening, journey began back to Kallianpur. While travelling back, went to Kaup beach. Students returned safely at around 6.30 PM. The trip was a wonderful and memorable experience for all.

Participants: Final year BCA students and four faculty members

Department of Computer Application (BCA), Milagres College Kallianpur has organised an Educational visit to Manipal Technology Limited, Udupi on July 30, 2022 for BCA final students to enhance their practical knowledge about 'IT- Projects/Products'. Mr. Raghuram Raj, Senior HR guided the students about the process of printing unit and software models.

Outcomes of the workshop:

- 1) Students will be able to combine theoretical knowledge with practical experience and use this additional knowledge to build their skills.
- 2) Students had an interaction with the management and employees and cleared doubts from the people directly working on the concerned matter.
