Office of the Principal

Water conservation facilities available in the institution:

1. Rain Water Harvesting:

Based on the above model, Science Association of our college digs pits every year to Harvest the Rain Water. Students have also digged pits of Rain water harvesting in Rose convent, Church Campus and Neighbouring houses.

2. Borewell/ Open well Recharge:

The college is recharging the Open wells by cleaning it every year. At present, college has started to dig an open well. And work started in the month of March/April 2020. Due to lockdown the work stopped for some months.

3. Construction of Tanks and Bunds:

Bunds are made by the Science Association of our college during the Monsoon Season every Academic Year

4. Maintenance of water bodies and distribution system in the campus:

College is using the open well of Rose Convent as a water resource.
